Description

Air filter box from a 1996 Honda XR400R. Complete with all components and springs, carburetor intake tube and dual filters, missing only the top filter seal. It has the usual marks of "enduro" use, including a broken spring, but is otherwise intact, complete, and functional. Compatible with 1995-2004 XR250R/400R (chassi-type JH2NE) models.
